December 5th , 2024

Dear Current or Future Member,

Seno K/RLT Conservancy is growing! We continue to focus on protecting more lands for public benefit and educating more youth who will grow to steward these lands. Almost nowhere else in the region will you find such prolific natural resources: tamarack bogs, rolling glaciated hills, a terrain of woodlands and prairies. Nature is our cathedral, and you're helping to create the legacy that will have positive impacts for generations to come. All of this work is made possible because of your support.

Seno K/RLT Conservancy encourages everyone to take time to get out and active in the outdoors...to try tracking animals through the snow, welcoming bluebirds to their houses in spring, crafting original art made from nature, launching a kayak during the long days of summer, learning the maple syrup-making process, and hiking the trails to take in the glow of the autumn colors.

Seno K/RLT wants to ensure access to the natural world well into the future for families, scientists, naturalists and all those who value nature. Membership continues to be vital to support our vision. In fact, a majority of our funding is derived from individual donors like you! Your membership or contribution helps Seno K/RLT to conserve, protect, and ensure the legacy of natural lands for future generations. It helps us serve tomorrow's children, today.

As we look ahead to 2025, we celebrate the positive results and impacts made thanks in part to your support:

- Your support helped us to partner with 16 different local organizations for programming and events
- You made it possible for us to serve over 1,000 students of all ages with natural resources and environmental education programming
- Seno K/RLT accumulated more than 1,800 hours in volunteer time for the care and maintenance of our public facilities
- Because of your commitment, we were able to eliminate busing costs and provide free or reduced cost natural resources education for more than 600 students participating in our Discovering Nature program
- You doubled the successful outcomes of our annual Autumn Open House

- You made it possible for us to craft and launch a new seasonal field trip program: Nature's Bounty
- Your support also ensured we were able to add 302 acres to our total protected acreage
- And we are currently planning to add an additional 60 acres before the end of 2025!

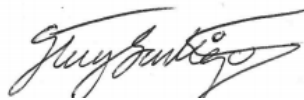

Seno K/RLT welcomes all visitors, especially those who have not yet taken our classes or walked our trails. Everyone is invited to drop by, as our trails are open dawn to dusk at our public preserves, free of charge. Discover and connect! Our vision to build a mutually beneficial relationship between people and the natural community remains integral to the future of land conservation. Please become a member today or renew your expiring membership to help keep the trails maintained, the buildings sound, and the woodlands healthy. Donations also enable the protection of both existing and new conservation easements and lands in Kenosha and Racine. Support adventure, learning, and celebrating the outdoors through Seno K/RLT Conservancy in 2025.

Most Sincerely,

Chris Litzau, Director

Stacy Santiago, Executive Director

Mark Lesko, President

I want to help conserve and protect land in Kenosha & Racine for future generations!

I want to help support the work of Seno K/RLT Conservancy in furthering conservation and land protection, natural resources education, and sustainable forestry in Kenosha & Racine. Here's my gift of:

- \$25.00 – Individual Friend of Seno
